

WHISKEY BASTERDS

Songwriters Michael Shonafelt and Jon B. Wilder never planned to make music. Sitting down one night five years ago with two guitars and a bottle of whiskey, they stumbled over a kind of musical alchemy. They have never looked back.

After years of friendship, and having already traversed their separate passages in life, love and loss, Shonafelt and Wilder realized their wildly disparate musical influences were not incompatible. Shonafelt, a bluegrass banjo-playing and newly-minted folk guitarist, took up vocal and rhythm guitar duties, while Wilder darted in-and-out of the tunes with British Invasion influenced melody stabs and blues-rock stings that sounded organic, sweet... complete!

The Whiskey Basterds were born.
